

# Water Conservation Services for Businesses

The SFPUC offers rebates, incentives and services to help businesses save water and money. When our customers use water wisely, it helps us to maintain our high-quality, reliable and resilient water supply. Wet or dry year, conservation is a way of life in California.

## Water-Wise Evaluations

During a free Water-Wise Evaluation, a technician will visit your property to help identify costly leaks, inefficient fixtures, and provide recommendations to improve your water efficiency.

## Free Plumbing Devices

Businesses can benefit from immediate water savings with free plumbing devices, provided during a Water-Wise Evaluation.

- High-efficiency showerheads
- Faucet aerators for kitchens and bathrooms
- Pre-Rinse Spray Valves
- Garden hose shut-off nozzles
- Standard toilet leak repair parts

## Clothes Washer Rebates

Customers may be eligible for rebates when purchasing select high-efficiency clothes washers, including high-efficiency coin-operated washers.

## Commercial Equipment Rebates

We offer rebates for installation of water-efficient ice machines, connectionless steam cookers, dry vacuum pumps, cooling tower controllers, and steam sterilizers, as well as water-

saving retrofits of industrial dishwashing, laundry and other operations.

## For Landscapes

We are committed to helping customers maintain beautiful and water-efficient landscapes. Visit [sfwater.org/landscape](http://sfwater.org/landscape) for complete program details, including:

- Free landscape irrigation system evaluations
- Low-cost gardening classes
- Water-wise guidebooks and plant lists
- Discounts for rain barrels, cisterns and Laundry-to-Landscape graywater systems

# Water-Wise Tips for Businesses

- Sign up for MyAccount to monitor your water use and spot unusual spikes

- Sign-up for a Water-Wise Evaluation\*

- Educate employees and visitors about conserving water – place signs encouraging conservation in public and employee areas.

- Repair or immediately report plumbing fixture leaks

- Replace inefficient toilets, urinals, washing machines and other equipment

- Install water-efficient showerheads and aerators\*

- Use a broom, not a hose, to clean sidewalks

- Prevent irrigation overspray onto hardscapes

\* Available free from the SFPUC

## Monitor Water Use

Sign up for **My Account** to view your hourly water use and pay your bill at [myaccount.sfwater.org](http://myaccount.sfwater.org)
