NOTICE OF PUBLIC HEARING: At the Regular Meeting of the SAN FRANCISCO PUBLIC UTILITIES COMMISSION on Tuesday, September 14, 2021 at 1:30 PM, to be held via teleconference, the Commission will hold a hearing and take possible action to approve the following for customers of the San Francisco Public Utilities Commission (SFPUC) Laundry to Landscape Graywater Rebate Program: Approve the launch of an in-house administered water conservation customer assistance program to provide SFPUC residential water service customers up to a $100 rebate for the purchase and installation of essential components of a simple graywater system that uses water from the clothes washer for outdoor, subsurface irrigation, commonly referred to as a “laundry-to-landscape” system. The Water Conservation Section will study if water and bill savings from installation of laundry-to-landscape essential components in the SFPUC’s retail service area can be determined and will administer the rebate program in coordination and in compliance with SFPUC accounting and City of San Francisco Controller’s Office guidelines. The rebate program will be funded from the SFPUC Water Conservation Section’s operating budget. The SFPUC estimates receiving up to 10 qualifying applications the first year, which represents about $1,000 in SFPUC expenditures.

The detailed agenda and related files will be available at least 72 hours before the meeting at the SFPUC website www.sfpuc.org, or by calling (415) 554-3165.
